## AGENDA ITEM 6 – GOVERNANCE AND FINANCE

### 6.1: 2019 – 2020 PRESENTATION OF GENERAL PURPOSE FINANCIAL STATEMENTS

Section 418 of the *Local Government Act 1993* requires that Council/JO must meet to consider the signed/audited financial statements **within 35 days** of receiving the signed auditor's reports (and give at least 7 days public notice prior to the meeting, inviting submissions).

Given the quarterly nature of RAMJO's Board meetings, the Office Manager wrote to OLG Engagement Manager seeking clarification on this matter, and were advised to request an extension for the presentation of the financial statements. Following this, the RAMJO Executive Officer formally requested an extension from OLG with the proposed timeline outlined below:

#### RAMJO's Proposed Timeline for Presentation

- Wednesday 6 Jan 2021 – Advertise Presentation of Financial Statements (documents on RAMJO website)
- Wednesday 3 Feb 2021 – Submissions close

### 6.2: Q2 2020 – 2021 BUDGET REPORT

The Office Manager provided a quarterly report at **Attachment D**. As previously reported, of note is that RAMJO does not have quarterly budgets, rather an annual budget as spending (other than wages) is not on a regular basis. Therefore, there are some variances in the report, however spending remains on track with budgeted items.

The following matters relate to variances noted in this report:

10 February 2021

- Unbudgeted additional income of \$33k: due to the sale of Mazda and Armidale Adverse Events Plan.
- Expenses not specifically budget however fall within budget parameters: Water Position Paper Marketing support \$10k, ID Profile website continuation \$18k
- Variance between accounts: Office/Project Manager salary split (Xero Software limitation, requires journal).

**Recommendation:**

- That the Board **receive** and **note** the Q2 Budget report.

*Received and noted.*

*Moved Albury, seconded Narrandera.*

## 6.3: 2021-2022 ONGOING FINANCIAL SUSTAINABILITY AND OLG REVIEW INTO JOINT ORGANISATIONS

The Executive Officer is in the process of preparing a report for the General Managers Advisory Committee to analyse the financial position of the Joint Organisation, heading into the 2021-2022 Financial Year. Namoi Unlimited Joint Organisation has created a financial sustainability toolbox, aimed to assist JO staff and Member Councils in conducting a 'ground up' approach to reviewing the financial outlook of the JO. RAMJO will be utilising the toolkit, along with identified income streams from the service delivery model in the analysis of a financial sustainability position for the JO. The Executive Officer and General Managers' Advisory Committee will provide a detailed report for the May 2021 Board meeting.

Additionally, the Office of Local Government's review into Joint Organisations has now commenced, with a letter from Minister Hancock to the Chair outlining the following terms of reference:

I thank JOs for providing suggestions for the TOR and assure you that those suggestions have informed the proposed TOR. The proposed TOR for this study are:

- Analysis of what has worked in the establishment of the JOs, and what barriers exist to good governance.
- How effective the JO model has been in supporting JOs to deliver against the core objectives of advocacy, strategic leadership and better outcomes for regional communities.
- How the delivery of core objectives can be measured.
- How other NSW and Commonwealth agencies work with the JO network and value the contribution of the JO network.
- How the \$150,000 capacity building funding has been used and the value of that funding program to the ongoing sustainability of JOs.
- Identification of barriers to success of the JO model.
- What a successful JO network looks like and how it can be realised.

The review is due to be completed by mid 2021, and it is hoped this process will drive out common concerns across NSW regarding the JO model, including the ability for it to remain financially sustainable, among other barriers and opportunities.

**Recommendation:**

- That the Board **note** the intention of the Executive Officer and General Managers' Advisory Committee to prepare a detailed report indicating the financial sustainability position of the JO for the May 2021 Board meeting.
- That the Board **note** the correspondence (**Attachment E**) received from Minister Hancock to the RAMJO Chair highlighting the timeline and Terms of Reference for the JO review.

*Noted.*

*Moved Griffith, seconded Leeton.*

## 6.4: CODE OF CONDUCT PANEL OF REVIEWERS

In May 2017, RAMROC General Managers received formal correspondence from the previous Executive Officer informing them of the completion of the RAMROC Regional Panel of Conduct Reviewers (**Attachment F**). Following the appointment of this Regional Panel, Councils were free to establish its individual Panel of Conduct Reviewers based on the appointed providers. The term for this panel was a 4 year period from 1<sup>st</sup> July 2017.

The term of this panel is due to expire on 30<sup>th</sup> June 2021, and advice from Office of Local Government is that the panel cannot be extended. Therefore the following options are available to RAMJO Member Councils:

- 1 Allow the current list expire and then each Council can undertake their own Code of Conduct Panel Process.
- 2 RAMJO go to selective EoI for the services, appoint the list and share with member Councils to adopt their list. RAMJO could use LGP Legal Services Panel as the reference/starting point in this scenario. **RECOMMENDED**
- 3 RAMJO go to public EoI for the services, appoint the list and share with member Councils to adopt their list. **RECOMMENDED**

Upon consultation with the General Managers, option 2 or 3 are recommended. Previously, RAMROC placed a public advertisement in the Sydney Morning Herald and all local regional newspapers. This would perhaps allow for local businesses to provide a submission to the EOI if they were not currently on the LGP panels. However, those existing businesses on LGP panels have already been through a partial process, including vetting of matters such as insurances, licences, etc.

Should Member Councils wish for RAMJO to undertake this task, it is anticipated it could be completed within existing resources, given the recruitment of a “Governance and Administration Support Office” role, partly funded through the cost sharing arrangement with the Far West JO.

### Recommendation:

- That the Board **endorse** either Option 2 or 3, allowing RAMJO to undertake this task on behalf of the Member Councils.

The Board discussed the merit of each option and agreed that Option 2 utilising the LGP Legal Services Panel would be less resource intensive for RAMJO and therefore the preferred option.

### **Endorsed Option 2**

**Moved by Griffith, seconded by Berrigan.**

Agenda order amendment: Item 13 Project Updates. The RAMJO Waste Team Resource Recovery Team Leader and Project Lead presented prior to the Regional NSW Update to allow the staff to travel. See detail below at Item 13.

## AGENDA ITEM 7 – REGIONAL NSW UPDATE

Mr Giles Butler, Director Riverina Murray division of Regional NSW, provided a verbal update from the Department.

### Recommendation:

That the Board **note** the briefing from the department of Regional NSW.

Mr Giles Butler provided a summary of recent grant expenditure and business support allocated to regional business following impacts from Covid-19 border closures and restrictions. A written summary of figures was not available from Mr Butler at the time of the meeting. RAMJO is represented by the RAMJO Executive Officer on the Regional Recovery Committee.

10 February 2021

An update was not available from Regional NSW on the ongoing item raised by Griffith General Manager of addressing the Stronger Communities Grant equity for Councils that had met the criteria but were not awarded the funding.

The Regional Water Strategies are progressing. Detailed information can be found here

<https://www.industry.nsw.gov.au/water/plans-programs/regional-water-strategies/development>

Mr Bulter provided information that \$50 Million from the NSW Government's Regional Growth Fund will be allocated to improving women's change rooms and amenities across regional NSW. The announcement can be found here;

**Noted.**

## AGENDA ITEM 8 – OFFICE OF LOCAL GOVERNMENT UPDATE

Mr Cameron Templeton provided a verbal update from the Office of Local Government.

### Recommendation:

That the Board **note** the briefing from the Office of Local Government.

Mr Templeton noted that the upcoming Joint Organisation review will be undertaken by a consultancy that hasn't previously been involved with a JO review or the set up of the model.

OLG confirmed that Councils Audit Risk and Improvement Committees are required to be set up by 2022. The review of ARIC guidelines which has received over 250 submissions will also include a review of projected costs to small Councils. Mr Templeton would report back on how many NSW Councils were yet to implement the requirement to have the committee.

**Noted.**

## AGENDA ITEM 9 – NBN CO PRESENTATION

Mr Andrew Cottrill, Community Engagement Manager for the Riverina Murray, and Mr Tom O'Dea NBN Regional Manager provided an introduction and update to the NBN Co agenda in the region.

### Recommendation:

- That the Board **note** the verbal briefing from NBN Co's Community Engagement Manager.
- A NBN Marketing Campaign is about to be launched to raise awareness of the services that are now available. They have reached the milestone of 8 million connections with still around 20,000 connecting each month.
- NBN are now working on regional projects (eg. Snowy Hydro) and with Regional Development Australia to lift digital capability in regional areas.
- NBN are focused on hiring locally based teams to service their home areas with two further positions being recruited for shortly in the Farrar/Riverina region.
- The Regional Connectivity Program has NBN partnered with 14 Councils across Australia with the desire to improve infrastructure where it is needed most.
- Satellite Technology (Sky Muster) will have to always be an option to some premises, however the service and cost had improved with Wifi calling option to be available soon, however the Copper infrastructure will remain.

Mr Cottrill took the following question on notice 'Is hosting other providers on NBN towers is an option into the future?' (Edward River General Manager)

## AGENDA ITEM 10 – RDA RIVERINA

Mrs Rachel Whiting provided a presentation on a RDA Riverina pilot program running until September 2021 on behalf of Multicultural NSW. RDA Riverina have a Migrant Economic Participation Coordinator who is tasked with mapping the migrants already in the region including their visas, the skills and qualifications. RDA are seeking to inform RAMJO Member Councils of the program in order to increase the number of connections related with this pilot.

### Recommendation:

- That the Board **note** the presentation from RDA Riverina's CEO.

Ms Whiting requested that Councils please share the link to the RDA's current survey <https://rdariverina.org.au/migration-survey>

Following the RDA Riverina CEO's presentation discussion ensued regarding how essential it was to assess what specialist and dedicated support is available in regional NSW towns to ensure migrants and refugees have safe-guards in place prior to relocating out of more highly populated cities where Government and NGO support availability was much greater.

Mayor Paul Maytom noted that Leeton Shire Council are currently involved in a program to identify if migrants and refugees in the Leeton community are receiving the support they require, including access to suitable and safe housing, healthcare and legal advice for visa assistance. The program intends to undertake a detailed needs analysis to support advocacy and direct people to assistance who have no Government support.

Albury City Mayor Cr Mack added that affordable housing and social housing is essential and should be prioritised as soon as possible and believed that the NSW Government should be assessing the need for a social housing program as part of any regional resettlement program. Cr Mack requested RDA review the Griffith City Council model which has recently seen significant investment in Griffith social housing ('Griffith City Council and Argyle Community Housing have come together to create 20 new affordable dwellings and approximately 45 new affordable housing lots' [https://www.griffith.nsw.gov.au/cp\\_themes/default/page.asp?p=DOC-QKZ-24-18-80](https://www.griffith.nsw.gov.au/cp_themes/default/page.asp?p=DOC-QKZ-24-18-80) )

*Noted.*

**Noted.**

## 11.2: DIGITAL CONNECTIVITY

- Following the meeting with the Deputy Premier's Office, the Chair of the Digital Connectivity Sub-Committee and the Executive Officer met with the GigState team. This meeting provided an opportunity to seek further insight into NSW's priorities in this space, with the firm advice that any available funding from Snowy Hydro will be utilised for capital investment only.
- Assessment of submissions under the Commonwealth's Regional Connectivity Programme, for which RAMJO worked together with Field Solutions Group, are underway. Some Councils have been contacted asking to provide additional information as part of the assessment process.
- Due to the agreed service delivery model including supporting the Far West Joint Organisation, the Chair of this Committee and RAMJO Executive officer are planning to draft a 'position paper' as an endearing statement to this priority, as it is likely to Executive Officer will have resource constraints heading into 2021.

David Webb and Brad Ferris will attend the meeting with RAMJO Executive Officer.
- The meeting will cover the following points:
  - products that are most likely to be relevant to the program based on demand from key regional NSW export markets
  - challenges and constraints to regional NSW supply chains that the program could address
  - opportunities that the program could leverage to improve regional NSW supply chains
  - industry and private sector interest to collaborate and co-invest in projects that improve the supply chain and freight network in regional NSW

Re-prioritisation of the RAMJO Regional Freight Transport Plan constraints is underway with Mr Brad Ferris's staff working to sort the updated matrix data provided to date.

**Noted.**

## 11.6: BEST PRACTICE AGGREGATED PROCUREMENT

- The draft Stages 2 and 3 report has been completed, with EOs from the 4 JOs working on some constructive feedback to shape the final outcome. The report has been shared with the RAMJO Procurement Group for comment.

- The Sub-Committee agreed to this change and to work towards and health position paper in 2021.
- At the General Managers meeting on 22 January 2021, Phil Stone agreed to shadow John Scarce in the committee representation due to the high number of meetings.

Regarding the NSW Health Enquiry; Leeton Shire Council surveyed community members and survey results showed dissatisfaction in services being provided with communication of information from NSW Health being a key issue for many. An example raised was that Triple 000 emergency ambulance services had not been timely, and the community concluded that was because the patient transport service is utilising ambulance resources.

The RAMJO Health Sub-Committee Chairperson Mr John Scarce will lead the sub-committee to work towards a positive solutions focused health position paper in 2021. Employment and retention of staff and the Finley Community Health would be reviewed as part of the process.
